ALX HORSEBOXES

ALX Horseboxes are based in the North of England and we were established in 2005 under “Alexanders Horseboxes”, we quickly became a multi-award-winning horsebox builder and a world-wide known brand. Fully VCA and EU Type Approved our horseboxes are built with Safety, Quality and Style. We only use the best materials that are built to last! In 2021 we re-branded with a new director and abbreviated our name from Alexanders to ALX, being the largest stockist of horseboxes in UK with a 20,000sq ft showroom we can offer live viewings to our clients in Australia!

Company Number 11419246 VAT GB302874415

The ALX-21 AU has been adapted to the Australian market, building them to AU compliance including;

- A white insulated roof to reflect the hot sun and keep the horse area cool
- 2 x Polycarbonate Roof Vents for air circulation
- Airconditioning in the cab for the driver
- Sealed rubber flooring to keep lifting to a minimal in the heat, we also leave a gap around the matting for expansion as the rubber gets hot
- Our sealants are made for a hotter climate to withstand the humidity
- Additional ventilation windows that open in the horse area at the bum area to create an air current
- XL windows in the horse area near their head that open

Working with Lauren based in AU we have designed the ALX-21 AU which is a take on our Stallion Horsebox but includes all the essentials required in Australia. With personalisation including the external paintwork, Graphic Design and Leather seat choices you can really put your own stamp on your horsebox!

Lauren is an advocate of the brand and owning one herself you can see one in the flesh prior to purchasing or you can arrange a live viewing via Facetime/WhatsApp with one of our UK Sales Executives.

ALX-21 AU ORDER FORM

CUSTOMER FULL NAME: <i>(Including Title)</i>	
CUSTOMER ADDRESS:	
CUSTOMER EMAIL:	
CUSTOMER PHONE NUMBER: <i>(Mobile Preferable)</i>	
DO YOU HAVE WHATSAPP: <i>(Yes or No)</i>	
WEIGHT REQUIRED: <i>(3.5T/3.9T or 4.5T – if other than 3.5T there will be an additional charge)</i>	
EXTERIOR METALLIC PAINT COLOUR OF CHOICE: <i>(Any colour on any car paint you have seen, or we can send you colour options if you are unsure. A flat paint is also allowed, it doesn't have to be metallic. Glitter, Pearl, Pearlescent, Ultra Metallic, Flip or Monochrome paint is an extra. We require the car manufacture and colour of paint ie – Audi Nardo Grey)</i>	
CONTRAST PAINT PACK COLOUR OF YOUR CHOICE: <i>(As per the exterior paint colour of choice above, but this includes the wing mirrors, fog light surrounds, splitter and grill)</i>	
DRESSAGE OR SHOW JUMPING GRAPHIC: <i>(Including the colour of choice, up to 2 colours, UK sales team will help with this)</i>	
LEATHER SEATS COLOURS OF CHOICE: <i>(Up to 3 colours, UK sales team will help with this)</i>	

I, the customer understand I am ordering the above vehicle for £60,570 (plus any additional charge for weight upgraded chassis'), I agree that upon acceptance of this order I need to transfer a £1,000 holding deposit and upon the build starting the remainder of the balance is required in full and is non-refundable.

Upon signing I also agree to the order terms and conditions on the next page.

Company Number 11419246 VAT GB302874415

ORDER PROCESS TERMS AND CONDITIONS:

All Australian import shipping transportation and associated fees including GST registration, stamp duties and agents booking fees are to be paid directly by the purchaser as invoiced.

Lauren George is a representative of ALX Horseboxes for AU and will help you as the customer to make your choices and import the vehicle at your end. Once you wish to place your order, it will be passed to our UK head office (for direct contact please email pippa@alxgroup.co.uk).

Upon receipt of your order a UK sales executive will go through the order with you, confirm final choices and specification. Additional specification other than what is listed, or a breast bar horse area option maybe chosen if required.

Once this is complete an invoice will be raised and issued, ALX will require £1000 refundable holding deposit to reserve your chassis. Lauren will then help you gain AU import authorisation and once cleared we will begin to build, At the point of the chassis going into build we will require the remainder of the full balance of the order which is non-refundable.

ALX aim to build your horsebox within 8-10 weeks on a 3.5T chassis, on other chassis choices there is a delay as stated above. This is subject to change depending on chassis availability, please bear in mind the UK show season runs May-August which is our busiest times so delays maybe expected during these months.

Updates will be given from the UK head office to you the customer along the process of order so you are kept in the loop.

Chassis availability may have an impact on price which will be confirmed at the time of order.

When the vehicle is ready for shipment ALX will deliver the vehicle to the selected UK port to board the boat you as the customer has booked. Lauren may help with finding you a boat to ship the vehicle over with, but this is the customers responsibility, we can recommend Jamea Alaia who is based on the Gold Coast to help - thetoystore@live.com.

Lauren can offer assistance and recommendations with the importation and licencing at the AU side, it maybe held for up to once imported for final security checks.

Once ALX have delivered your vehicle to the boat we cannot be held responsible of any damage/theft or breakages that may occur.

ALX are not responsible for any import duties or tax at the AU end and our price excludes UK VAT as we will notify the DVLA it has been exported.

It is the customers responsibility to re-register the vehicle as an import with the AU driving agency and gain AU registration plates.

It is the customers responsibility to make sure the vehicle is adequately insured, and the driver is covered before driving the vehicle.

The chassis we will build on is supplied with the remainder of a 3 year UK manufacturer warranty that maybe void in AU.

Prices are in UK pounds; at the time of order this will need to be converted into AU Dollars for the correct conversion price to be sent.

ALX horseboxes cannot be held liable if you the customer decide to over-load your horsebox, you must stick within the legal limits allowed and as advised above the payloads are to be adhered by.

The ALX horsebox build cannot be provided with any warranty due to not being able to ship parts in a timely manner into Australia, therefore all build faults going forward would need to be booked in at a garage/dealer in Australia to be fixed. Graphic stickers fit to your horsebox may peel with excess heat and power washing, please bear this in mind.
